Dear ID professional,

Thank you for visiting with us during the CARTES 2013 Trade show in Paris.

We were happy to present and demonstrate the following Card & Passport issuance equipment:

- **Banking equipment** - Our EMP-6600 is ideal for high volume banking Card issuance with up to 1,500 cards per hour including mag stripe & chip (contact & contactless) encoding, embossing & tipping and card sorting.
- **Passport issuance** - Our JC-8000 ePassport fully automatic centralized production of 120 booklets/hour and our decentralized JC-8010P printing and JC-8020F lamination units are fully compliant with ICAO/OACI standards.
- **Smart Card Personalization** - Our JC-6200G (II) combining dual interface reading/encoding with high speed card laser marking for a wide range of applications.
- **3-D UV inkjet card printers** - for small and large volume card production.
- **Card counting equipment** - Our full range including our newer EMP-1100C handheld just released on the market.

Most importantly we have been fortunate to hear and learn from you during your visit...

As we follow-up on your specific requests, feel free to contact our office any time for any questions or projects in which you would like us to be involved.

Again, thank you for your visit, we look forward to partnering with you along 2014...and beyond,

Sincerely,

Your EmperorTech Team

Meet us at the upcoming Trade Shows & Conventions listed on line at <http://emperortech.us/events.php>
